"Say it with Roses"

Edna Herald Print

R O S E S .

Prices: 2 year old, strong, 50c each; per 10, \$4.50.

American Beauty Red (Cl.) Same color, size and fragrance as American Beauty, with the addition of the climbing habit.

American Beauty, White (Cl.) Same as above except the color is white.

Bessie Brown. (H. T.) Erect stems, full deep bloom with enormous petals, white flushed with pink, growing deeper toward center.

Blumenschmidt (T.) Pure citron yellow, outer petals edged tender rose; winner of three first premiums.

Catherine Mermet (T.) Light rosy flesh color, full and globular. A charming sort.

Captain Christy. (H. P.) Delicate peach-blow pink, center rich in color, large and full.

Etoile de France or Star of France, (H. T.) A strong, healthy grower and a quick and abundant bloomer; makes beautiful, large pointed buds and extra large double flowers. Color intense brilliant crimson; very fragrant. One of the best.

Etoile de Lyon, (T.) Bright Sulphur yellow; fine form; a fine yellow rose.

Frau Karl Druschki or White American Beauty. (H. P.) This grand rose has become renowned as the very highest type of its class and the best snow white rose ever introduced. Strong grower and has the hardiness of an oak. Flowers are immense in size. The color a marvelous white.

Gruss an Teplitz, (T.) Reddest of the red roses; bright, dark and rich. It blooms in wonderful profusion throughout the season, and is a strong grower.

Helen Good. (T.) The color is a delicate yellow, suffused with pink. Very beautiful.

Jonkheer J. L. Mock (H. T.) One of the newest introductions. The blooms are of the largest size, perfect form, of a lovely carmine color, changing to pink, and very fragrant. Price \$1.00 each.

Kaiserin Augusta Victoria. (H. T.) A free and regular bloomer from early to late. Pure white and produced on long stems.

Kaiserin Augusta Victoria (Cl.) Strong, climbing form of the variety of same name. Pure white.

Killarney, White (H. T.) The popular Irish rose. Its blooms are of a brilliant glistening white, very double and borne on strong vigorous bushes.

La France. (H. T.) The Queen of all the Roses. Beautiful bright, silvery pink with pale lilac shading.

Lady Hillingdon, (T.) Pointed bud of brilliant, deep golden yellow. Awarded gold medal.

Los Angeles, (H. T.) Los Angeles is by all odds one of the finest roses ever introduced. The growth is very vigorous and blooms continuously, flowers of a luminous flame—pink toned, with coral and shaded with translucent gold at the base of the petals.

La Detroit, (H. T.) Shell pink, shading to soft rose. A beauty.

Mamon Cochet, Pink, (T.) This is the famous Pink Cochet: light pink shaded with salmon-yellow; outer petals splashed with bright rose; extremely large and full.

Mamon Cochet, White, (T.) Of same sturdy habits, size of bloom and delicate fragrance as Pink Cochet, and of such a pearly white and exquisite shading of most delicate pink. Easily ranked as one of the best roses.

Meteor, (H. T.) As a dark crimson, perpetual Rose, this is one of the best. It is especially a fine summer and fall bloomer.

Mademoiselle Franzisca Kruger (T.) Variable: sometimes deep golden yellow with copper shade, then again, yellow flushed rosy pink. One of the freest bloomers.

Madam Masson, (H. P.) This is a glorious rose. The flowers of the largest size; color, bright brilliant red.

Mrs. A. R. Waddell, (H. T.) Strong, rampant grower, with foliage that is ornamental in itself. Buds long and pointed; apricot yellow, fragrant, large and semi-double; splendid bloomer.

Marchal Neil (Cl.) The grand old southern favorite; with a fragrance equalled by none; full double; golden yellow bloom produces abundantly all seasons of the year. Every home should have one or more of these grand climbers.

Madame Constant Soupert, (T.) A new introduction. Deep yellow, shaded peach, large, well formed.

Ophelia, (H. T.) Salmon-flesh, shaded with rose, large and of perfect shape; of excellent habit; good for forcing and a fine decoration variety. Growth vigorous. Be sure to have "Ophelia" fixed in your memory.

President Carnot, (H. T.) Delicate flesh shaded to white; large, beautiful buds; cupped.

Perle des Jardins, (T.) Deep straw yellow; sometimes deep golden yellow; large and double; free bloomer. No collection is complete without Perle.

Papa Gontier, (T.) The buds are a deep carmine, but as the flowers open they are shaded with rose; free bloomer, the first in the spring and last in the autumn.

Radiance, (H. T.) The finest pink rose we

grow. No description can do it justice. Buds are rather rounded; flowers cup shaped; a beautiful shade of soft carmine pink, deeper on outside than inside or petals; large, sweet scented, long stems. Has no superior.

Radiance, Red (H. T.) Same as above except color.

Sunburst, (H. T.) This magnificent yellow rose is a fine forcer; it stands heady and shoulders above all others of its color, and will rank with the American Beauty and Killarney in valor and grandeur. The color is orange-copper or golden-orange and golden-yellow, all intense shades, brilliant in effect. It is the yellowest of all roses in the ever blooming class.

White Malmaison (Crown Princess Victoria) (B.) White tinted with lemon; resembles the Old Souv. de la Malmaison except in color. It is a rose that stands up well at the head of the procession. Extra.

William R. Smith, (T.) The soft blending of the salmon pinks and the rose-pinks and the beautiful flesh tints in this rose gives it a singular resemblance to the entrancing flush of a maiden's cheek.

Willowmere, (H. T.) Truest salmon-pink; flowers very large. New introduction; belongs in every collection.

ABOUT STOCK NOT LISTED..

We have arrangements with some of the best Nurseries whereby we can furnish the best varieties of Peaches, Plums, Pears, Pecans, Berries, Shades, Ornamentals, etc., and will be glad to take your orders. We can sell them to you as cheaply as you can get them direct and still make a small margin of profit to pay us for our trouble. We solicit your orders.

INVITATION.

We cordially invite you to visit our nursery and examine our stock and talk over your plans. If we can help you in any way we will be glad to do so without any expense to you. If we can convince you that we can give you better value and service for your money than you can get elsewhere we will be glad to fill your orders and guarantee satisfaction.

A Certificate of Inspection given with each order.

FAIRVIEW FARM & NURSERY

EDNA :-: TEXAS

"Say It With Roses"

Why You Should Buy Your Trees and Plants From Us.

We sell nothing but first class trees and plants and guarantee them to be so.

We pack in good shape and ship direct to you from the Nursery, which insures you getting good, fresh stock in fine condition.

We use every precaution possible in selecting buds, and select them from proven, bearing trees, which gives you a thoroughbred.

Our stock is grown in sandy land, making a fine root system.

There is no better place in Texas to buy your trees than from us, as we are well equipped to take care of your wants.

Remember, these pedigreed trees can be bought direct from us for much less money than you will pay an agent for just trees.

We advise placing your orders early to insure getting your orders filled. Frequently orders sent late in the season cannot be filled in full. Do not wait until you are ready to plant, but send us your order now, with 25 per cent of the total to apply on account, and we will reserve the stock for you.

CARE OF TREES UPON ARRIVAL.

If unable to plant immediately, they should be taken from the bale and heeled out in a well drained, moist piece of ground in order that the roots may not become exposed to air and sun. Water well. The ground should be well plowed, disked and harrowed before planting in orchard. Only take a few trees out at time when planting so as to protect the roots from drying. Cut back at least one-third of the growth. Do not use unrotted stable manure in holes or around the trees. You can greatly stimulate growth by using well rotted manure, mixing well with the soil. Bone meal is a fine fertilizer for young trees; apply in March or April by digging a trench around tree and apply, mixing with soil 12 inches from trunk of tree. Give your trees a chance—it will pay.

OUR GUARANTEE.

All stock is guaranteed to be true to name, up to grade and free from disease or insect pests. In case anything should be found otherwise, we will, upon proper proof, refund the amount paid or replace the stock in question. We will not in any case be responsible for any greater amount than originally paid for the stock in question.

All shipments will be accompanied by a certificate of Nursery Inspection.

ROSES—"THE QUEEN OF FLOWERS."

Roses, of all flowers, belong in a class to themselves. It is now possible to have them in most any shades and colorings, with their delicate perfume. For length of blooming period they have few equals and no superiors among flowering shrubs. The rose belongs in a class to itself. Every one of our plants is field grown and budded on low, non-sprouting stalks, and varieties especially adapted to the Coast Country.

Classification: (H. P.) Hybrid Perpetual;
(H. T.) Hybrid Tea; (T) Tea; (B.) Bourbon;
(C) Climber.
